THE ZERO CARBON PROJECT (PUBLIC DECLARATION)

[SHIANG SHANG - Official website](#)

We are committed to embarking on a **Decarbonization** journey to mitigate the impacts of **Global Climate Change** which is corresponding with one of Shiang Shang Electronics Mfg. Co., Phils., Inc. goals on urgent action to combat climate change and minimize its disruptions.

[Shiang Shang Electronics Mfg. Co., Phils., Inc.](#)

Our Corporate Goal is to Reduce our Operational GHG (Green House Gas) Emissions Intensity by 50%, by 2029.

GHG Intensity Status

Co2 Emissions	Unit of Measure	2024 (Base Year)	2025 (Actual)	2026 (Plan)	2027 (Plan)	2028 (Plan)	2029 (Plan)
Total Scope 1	Ton CO2e	38	36.28	34.2	30.4	24.7	19
Total Scope 2	Ton CO2e	1107	1138	996.3	885.6	719.5	553.5
Total S1 + S2	Ton CO2e	1145	1174.28	1030.5	916	744.2	572.5
GHG Intensity (per Unit of Revenue) % Reduction		0%	+2.6%	-10%	-20%	-35%	-50%

For 2025, the GHG Intensity increased at 2.6% from 2024 baseline due to increase in Production demand to support Customers requirements.

With the plan completion of the Rooftop Solar PV System installation in Q4 2026, we are confident that we can gradually reduce our emissions intensity and reap the full benefit starting in 2027.

We will also explore the adoption of Renewable Electricity through the GEOP (Green Energy Option Program) scheme, to further reduce our emissions and achieve our corporate goal of 50% reduction by 2029.

July 2026
